

EXTRACT FROM ANTWERP LETTER dated 4th. June, 1919.

I beg to forward for the consideration of the Committee a Midship Section & Profile proposed by Messrs. The Antwerp Engineering Co., Hoboken, for their new steamer No. 75. The Builders state that the vessel is for the Mediterranean trade and capacity is required rather than deadweight, they therefore wish the plans to be dealt with for the vessel to class "100 A.1. With Freeboard". At the same time they would be glad to know if the proposed freeboard, viz., 4'6", will be approved.

(Signed) G.V.Herbert.
