Dear Sir:

"LEOLA VIVIAN"

I am forwarding herewith Vancouver Surveyor's First Entry Report No. 5316 on the above named vessel, which is Vivian Yard Marpole Hull No. 1. The following plans and reports are also enclosed:

Two prints of Midship Section
Rudder and rudder assembly
Rudder casting report
Crankshaft
Tail Shaft
Pumping arrangement
Oil fuel tanks
Air receiver
Engine shafting test reports
Air receiver report
Photo of auxiliary engine

It will be noted that the main scantlings of the vessel as built are in accordance with the latest approval, a copy of which was forwarded to you with my letter of the 30th March last.

The chain cables for the vessel have not yet been delivered and in these circumstances it is suggested that assignment of the Figure 1 might be deferred, pending receipt of particulars of the chain cable.

The Surveyor points out that the sizes of pipes in the pumping arrangement are somewhat below those required by the Society but adds that they are in accordance with the general practice, as approved by the Canadian Government Inspectors and that they are all of brass and have been tried out. In his opinion they may be accepted in this instance.

I am, Dear Sir,

Yours faithfully,

W. H. Bennett
Principal Surveyor
U. S. A. & Canada

The Secretary
