The Secretary,

NEW YORK.

Aux. Vessel "SAN RAMON". S.Fo. Rpt. No. 2701.

Dear Sir,

We are in receipt of your letter of the 29th ultimo relative to the above case, and in reply thereto have to advise you that in all cases of the Skandia engines built at this port the intermediate and propeller shafts were made at the port where the engines were fitted. Some of this shafting, however, may have been made at this Port for this particular engine and if you could obtain the markings from same, we will be glad to advise you further in this matter.

Yours very truly,

J. Blackett
