LONDON.

REC'D FEB 27 1919

ANS'D

S. Hull Esq.

Dear Sir:-

Your letter of January the 21st received regarding the S.S. "War Osiris" Port Arthur Shipbuilding Co, will say that the rivets in the butts of the bridge poop and forecastle sides plating are spaced  $3\frac{1}{2}$ " diameters apart.

The hatch beams in Nos. 1 & 4 hatchways are as shown in the approved plan.

I am sorry that your letter of Aug. the 20th in regards to this was not answered, it was at this time I was obliged to move the Office and it is probable that this was forgotten at that time.

Yours very truly

T MacKindale
