Lloyd's Register of Shipping

240 Dasmariñas, Manila, P. I.

April 4th, 1941.

C. B. NELSON
SHIP AND ENGINEER
SURVEYOR

The Principal Surveyor,
Lloyd's Register of Shipping,
17 Battery Place,
New York,
U.S.A.

Dear Sir,

M/L "TROVADOR"

Relative to yours of the 14th February
I beg to advise that Owners do not wish to retain
the Classification, this also applies to the
"TRABAJADOR" and the "RANGER". (100) 4.41.

(100) 3.32. As previously advised LONDON the Owners
of these vessels have all their craft built under
Lloyd's Special Survey as they know that they will
then obtain the best material and supervision.

They are very good friends of ours and
there is no doubt that they will always have their
craft built under Lloyd's Special Survey.

The Load Line Certificate is in ILO ILO
and will be returned to you for cancellation when
I receive it.

Yours faithfully,

C. B. Nelson

CBN/am.

DEAR SIR,
 "RECOGNITION"

Yours self and the lady of shipping
 master to make for not what they
 relate to ships to the
 "RECOGNITION" and the "AMERICAN".

several and NOMINOI have the ylanoliver by a
 10000 still state that they will
 know that they will
 be the first to know that they will

the first to know that they will
 be the first to know that they will
 be the first to know that they will
