

"COLBERT"

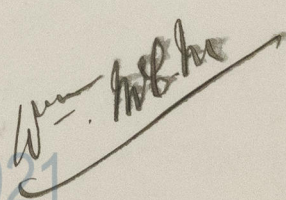

A telegram has been received from the Baron de Forest stating that he has sold the above vessel, subject to an inspection by the Purchaser in dry dock revealing nothing worse than covered by the Condition Survey Reports of last October.

The Baron requests that the Nantes Surveyor be instructed by wire to attend the forthcoming dry docking at St. Nazaire to uphold the reports on his behalf, if necessary.

It is submitted the Nantes Surveyor be informed of the wire received and instructed to join in any necessary survey.

Copies of the reports dated 15th & 26th October 1928 should be forwarded to the Surveyor for his information and guidance.

The Owner should be requested by wire to advise the Nantes Surveyor of the date of docking.
