28 APR 1930

Lloyd's Register of Shipping.

Port of BREMEN.

Augsburg, 5th April, 1930.

This is to Certify that

Victor Sdrowek

the undersigned Surveyor to this Society did at the request of Messrs. Maschinenfabrik Augsburg-Nürnberg A.G. attend their works at Augsburg on various dates for the purpose of surveying during construction two riveted starting air receivers of 1100 ltr. capacity each, external diameter 834 mm., thickness of shell plates 17 mm., to the order of Messrs. Aktieselskab Naksø Skibsværft and intended for the M.V. "POMORZE".

These air receivers have been examined throughout and were found in accordance with the approved plans. They have been submitted to an internal hydraulic pressure of 45 atm. and were found sound and tight at that pressure.

They have been stamped for identification:-

LLOYDS TEST
960
45 atm.
W.P. 30 atm.
V.S. 5.4.30.

For results of tests of the material see Certificates 3246/44358 of the Düsseldorf Surveyors Office and 960 of the Augsburg Office.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-
While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
