

s.s. " LONDONIER ", " MACEDONIER " and  
" JOSEPHINE CHARLOTTE "

---

It is submitted the Antwerp Surveyors be informed that it is noted that the Belgian Authorities have agreed to the assignment of freeboards to these ships, subject to the alterations required being carried out.

With reference to their enquiry regarding the omission of gussets or angle lugs to the stiffeners of the poop front bulkhead, the Surveyors should advise them that in view of the arrangements fitted, and the past service of the vessels it is considered that the Convention requirements for existing ships have been reasonably complied with.

The Surveyors should forward particulars of the alterations effected, together with the verification of marking form, in order that the Belgian Certificates may be prepared and sent for endorsement by the Belgian Authorities.
