

S.S. "VAE VICTIS"

It is submitted Mr. Herbert be informed that his remarks regarding the ratification of the Convention by the Belgian Government have been noted.

The reference to the above in the Secretary's letter of the 17th instant to the Owners and to the Bordeaux Surveyor, was inserted inadvertently. The words "when the Convention has been ratified by the Belgian Government" should not have been inserted.

It is noted that the steamer "LONDONIER" is now under survey for Convention freeboards, and the necessary steps will be taken for the issue of certificates when the report is received.
