Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

6th June, 1924.

2 Enclosures.

S. Dear Sir,

With reference to Greenock First Entry Report No. 18226 on the Steamer "ZAPALA", I have to say it is concluded that the spacing of the rivets in the buttlaps of the Poop and Forecastle side plating is as required by the Rules, and that the thickness of the centre girder floor connections is as approved, but I shall be glad if you will kindly ascertain from the Surveyors and let me know whether this is so.

I am, Dear Sir,

Yours faithfully,

Secretary.

P. S. I enclose herewith classification certificates for the hull and machinery of this vessel.

The Secretary,

GLASGOW.
