ships the height of the keel is to be taken from the level of the top of the mainmast beam.  
In flush-decked vessels the total standard mean sheer means the sheer measured at the stem and stern-post. In vessels having poops and forecastles, it means the sheer measured at points distant one-eighth of the vessel's length from stem and stern-post.

line of keel or to the water line. It measured ... survey, and also the usual load draft forward and aft should be reported.
