

COPY.

1 Encl.

16th November, 1907.

Gentlemen,

With reference to the freeboards assigned by the Committee to the new steamer "GANELON", I have to point out that it would appear from the report forwarded by Mr. Campbell-Holms that the size of the centre fore and after only is given thereon, and that the size reported is less than the Rule requirement. The sizes of the side fore and afters should be furnished in order to complete the report.

I have at the same time to send herewith a copy of the freeboard report as amended for the consideration of the Committee, and to draw attention to the corrections which have been found necessary in the computation.

I am, Gentlemen,

Your obedient Servant,

Secretary.

The Surveyors,  
NEWCASTLE.
