ANSD.....

Dear Sir,

m.v. "KARPATY".

I have to advise you that the above vessel is at present on the Floating Dock at the Stocznia Gdanska, Gdansk, undergoing Damage repairs to the stem and stem plating and 'B', 'C' and 'D' strakes forward (p&s).

Repairs necessitate the renewal of several plates (ps), the removal, fairing and refitting of several plates and internals and the fairing in place of many plates and internals, port and starboard.

The Damage is stated to have been caused by the vessel running on rocks in the Black Sea 9 miles from Odessa during fog, whilst bound from Constantza to Odessa with a full cargo of Spirit, on the 14th April 1950.

It cannot be certain that material used during these repairs has been tested to Rule Requirements.

A Periodical Load Line Survey, now due, has not been carried out.

Yours faithfully,

*W. Threlkeld*

The Secretary,
