To the Surveyor(s) at KOBE.

Vessel's Name, Motorship "SYOHEI MARU".

QUESTION.

I have to acquaint you that in December last the Seattle Surveyor reported that he had made an examination of ^a crack in the inside face of No.5 forward crank web of the main engine and he recommended that this should be examined on the vessel's arrival in Japan at the end of the contemplated voyage.

In the circumstances, I shall be glad if you will let me know how this matter now stands.
