The Secretary,
LLOYD'S REGISTER OF SHIPPING,
71 Fenchurch Street, E. C. 3.

Dear Sir,

"MONTEZUMA"

It is quite right that the Downton Pump and Kedge Anchor have not been supplied, but this is the fault of the Authorities, who appear to be putting in force all sorts of regulations for cutting out this that and the other on various new Ships. We think it is a very great mistake.

Yours truly,

A. Watt and Son
