*"Kivisima Maru"*

FREEBOARD REPORT on the

It is submitted the Tokio Steamers be informed it was noted from their Rpt 8 No. 10570 ~~that~~ dated the 3/2/38 that the new gross and net tonnages were 8340 and 5180 tons respectively. In reply to an enquiry from this office on the 24/2/38 and dated at Kobe on the 5/4/38 the gross tonnage was given as 7492 and the net tonnage 5579 tons.

In view of the great differences in these figures the Steamers should verify them and advise this office. At the same time they should give the tonnage under the upper deck for insertion in the Register Book.
