Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

7th November, 1922.

ENCLOSURE.

Dear Bartlett,

We are in receipt of your freeboard report for the S.S. "FULGOR". We had some difficulty in tracing this vessel, and found that it was approved originally for another builder. Any information regarding a change of this character should have been indicated on your report.

The under deck tonnage given by you appears to be excessive, as it is found that after making all necessary corrections, the tonnage coefficient for freeboard purposes of .87 is obtained. We have computed the freeboards on a coefficient of .82. This is the highest given in the freeboard tables, but I shall be glad to hear from you regarding this point.

For your information I enclose herewith a copy of the freeboard computation.

With kind regards,

Yours faithfully,

C. Bartlett, Esq.,

G E N C A.
