71, Fenchurch Street, E.C. 3.

Encl.

LONDON.

4th December, 1922.

Dear Sir,

The Cantiere Navale of Spezia inform us that the S.S. "FULGOR", newly built and fitting out there, had delivery delayed by more than 20 days because your Surveyor at Glasgow, through which has been received from the Owners of the S.S. "FULGOR", Messrs. E. & J. Hunter, ordered that asbestos bags should be fitted and I shall be glad if the Surveyors will be so good as to furnish me with the information desired.

Instead of the usual refractory bricks.

I am, Dear Sir,

Yours faithfully,

Assistant to the Secretary.

The Secretary,

Mr. Brown, your Surveyor at Genoa, on being asked about it, confined himself to requesting that the boilers should be rendered

Glasgow.

water-tight, leaving it to the yard to arrange whether they should

be refractory bricks or asbestos bags.

In view of the above it would appear that the Surveyor at Genoa

refused refractory bricks, and if so, it would be better to have

would let us know the result of the Surveyor's report.
