

S.S. "KANNA".

---

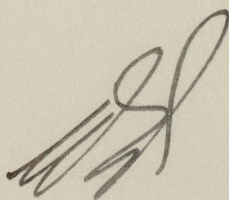

It is submitted the Wellington Surveyor be informed that when this vessel was reclassified in 1928 the Auckland Surveyor reported that freeboard certificates were not asked for, and in consequence freeboards were not re-assigned.

It is noted that the Owners now desire freeboard certificates to be issued, and for this purpose it will be necessary for him to forward full particulars on form llb.

In view of his statement, however, that no structural alterations affecting the freeboard have been made to this vessel since the issue of the original freeboard certificates, new certificates similar to those originally issued might be sent for issue to the Owners when the freeboards are marked and verified.

The Surveyor should forward the usual verification of marking form with his freeboard report.

A copy of the original freeboard report should be sent for his guidance.
