

80 foot Steam Puffers "VIC 49", "VIC 50", "VIC 51", "VIC 54", "VIC 81"

Classed \*100A1 for Coastal Service.

L.M.C.

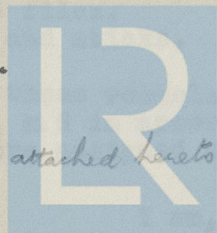

Machinery Spare Gear.

In view of the class which has been assigned to a number of vessels of this type it is considered that  $\frac{1}{2}$  a dozen boiler tube stoppers (complete), a set of suction and discharge valves and seats for a bilge pump, and a set for a feed pump, a small quantity of assorted studs, bolts and nuts and a few pieces of  $\frac{1}{2}$  plate should be carried on board as spare gear.

It is submitted the D.D.M.B. should be informed of the foregoing and that it is considered advisable that arrangements be made for this spare gear being supplied to the above mentioned and future similar classed vessels.

*See correspondence re spare gear  
attached to Vic. 49*
