In reply to your letter of the 21st instant with
reference to our First Entry Report No. 20027 on the
"FIUME", we have to state that the butts of forecastle
plating are single riveted $3\frac{1}{2}$ overlaps, and regret
the width of overlap was incorrectly stated in our
report.

We are, Sir,

Yours faithfully,

The Surveyors,

Referred to the Chief Ship Surveyor.

FAW 1920

Also for Mr. S. A. Hill to note.

The Surveyors should be requested to verify their statement that the hulls of freecastle side plating are single notched in view of double notches being required by rules.

They should also state if notches in hulls are spaced $3\frac{1}{2}$ " or $3\frac{1}{2}$ " diameter apart.
