Tsurumi near Yokohama.

Ship No. 270: Omission of  
F.No.101 tween deck bulkhead

Dear Sirs:-

Referring to your letter of S.270-211,  
we hereby beg to state that we are requesting  
the omission of the F. No.101 tween deck bulkhead  
for the sake of easy handling of lumber cargoes,  
although Lloyd's rules requires 7 watertight bulk-  
heads to be extended to the upper deck in a vessel  
of this length.

We are agreeable that a suitable notation  
be made in the Register Book and on the Certificate  
of Classification regarding its omission if no other  
effect be occurred.

Yours faithfully,

I. Matusaki.
