The Annual Survey of this vessel's boiler became due in February last and the survey of the screw shaft in May last.

In reply to enquiry, however, the Owner states that he has decided not to retain the class in the Society's Register Book.

In the circumstances, the Classing Committee, who had the case before them on Friday, 17th instant, decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owner's request.
