S. S. William Doak

Hull 43326
Off.

The machinery of this vessel was constructed & fitted on board ^{under} the inspection of the Society's surveyors in Sept 1918. but as the vessel was not classed no record was assigned.

A survey for classification of the vessel has now been partly held at Cardiff & it is proposed to complete the survey at Bowes.

The machinery has been examined throughout & the screw shaft drawn, to complete the survey, the machinery requires to be ~~only~~ tried under steam & the safety valves adjusted.

It is submitted that this vessel WILL BE eligible for the record. + L.M.C. 9.

S. 9. C.L. when the survey on the Hull & machinery has been completed.

L.
5/5/22.

Advise Lou

The Cardiff surveyors should be requested to ascertain from Mr Johnstone the date of his last survey as this is not legible on the report also of his first survey & the number of visits paid.
