Lloyd's Register of Shipping.

Port of Kobe.

22nd December, 1925.

Certificate No. 796.

This is to Certify that

J. McMillan.

the undersigned Surveyor to this Society did at the request of

the Mitsubishi Eosen Kaisha, Kobe, makers, survey the ELECTRICALLY
DRIVEN TWO THROW BALLAST PUMP for Mitsubishi Co's (Nagasaki) ship
No. 411.

The pump water end was tested to 60 lbs per sq. inch
hydraulic pressure on 5th November 1925, and found sound and good.

The pump was subsequently examined under working
conditions on 7th November 1925 and found satisfactory.

The pump has been stamped:

LLOYD'S TEST
NO. 796
JM 7/12/25.

This pump is to be forwarded to Nagasaki for in-
stallation in the above-mentioned vessel.

J. McMillan
SURVEYOR TO LLOYD'S REGISTER.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood
that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or
certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of
judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
