Dear Sir,

Nagasaki Hull Report No.1757.  
Interpretation of Circular No.1551.

I beg to bring to your notice that the Forecastle Deck is recessed at aft end for ladderway (please see plan) and that the length of this recess is included in the length of forecastle deck given on report. In view of the instructions given in the above circular I shall be obliged if you will inform me whether this is correct or whether the length should exclude the length of recess.

I am, Dear Sir,

Yours faithfully,

*George Anderson.*
