

Kobe, October 16th, 1924.

To Messrs. Harima Ship Yard,

Harima S.NO. 93. - " FUKKO MARU ".

SHAFT BRACKET.

Dear Sirs,

We beg to inform you herewith that we have no objection to leave the shaft bracket as it stands, on which such a few minute surface cracks as shown on the submitted sketches and description, were incidently found just 3 days before the launching of the ship, provided that the adequate compensation thereto is accomplished and approved by Lloyd's surveyor.

Hoping your excellent workmanship,

Yours faithfully.

K. Tamiya.

The owner of the above ship.
