nt to Chief Surveyors

Received from Chief Surveyors

VESSEL'S NAME Stl. Sc. "PORTO GRANDE"

Report

Grk.

No. 16973

## For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR.

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement." - Extract from Sub-Committee's Report, 24/5/82.)

Nature of Survey

When due

This vessel is classed 100A1.

The vessel was originally built for the carriage of water in bulk in a similar manner to the "Dr. GONDIM", which was recently completed by Messrs. G. Brown & Co., Greenock and classed 100A1 "Carrying water in bulk".

The Owners were asked to state if the vessel was still engaged in carrying water in bulk, and in reply they now state the vessel has always been employed in that service, and agree to the classification in the Society's Register Book being amended to 100A1 "Carrying water in Bulk".

It is submitted the vessel's class be amended as above.

+ 100A1  
"Carrying water in bulk"
