Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

FAM

30th June, 1924.

Dear Sirs,

S. With reference to the classification in this Society's Register Book of your steamers "PORTO GRANDE" and "SAGRES", I shall be glad if you will be so good as to let me know whether these two vessels are still employed as water-carriers, the service for which it is understood they were originally intended.

If that is the case, I have to explain that with a view to indicate in the Society's Register Book the special service for which the steamers are suitable it is proposed to make a record of the classification in each case as follows:- 100 A1, Carrying water in bulk, which, I have no doubt, will be agreeable to your goodselves.

I am, Dear Sirs,

Yours faithfully,

Assistant to the Secretary.

Messrs. Ferre & Co., Ltd.,

ST. VINCENT,

Cape Verde Islands.
