

REEBOARD REPORT on the

S.S. "Yarra"

It is submitted the Freeboards given on the accompanying form, being those required by the Tables, merit approval *subject to the connings of Nos 1, 2, 4 and 5 hatchways being reinforced by horizontal stiffeners as required by the Convention.*

The Surveyors should satisfy themselves that the hatchway frames after fit closely and efficiently in their sockets, otherwise the bearing surface should be increased to the full requirements of the Convention.

The existing freeboards, being more favourable than those computed under Convention regulations, have been reassigned.

The proposed certificate & two copies should be forwarded for issue when the freeboard have been marked verified, & the conditions of assignment have been complied with.
