Southampton.

12.1.34.

"ROCK" ~~(Contd.)~~ Confirming the conversation I have had with you over the telephone this afternoon regarding the request received from the Shipbuilders for the classification certificate to be forwarded by tonight's post and your intimation that Messrs. Petters Ld. have no objection to this being done, I have to inform you that the hull and machinery certificates have been forwarded to the Newcastle Surveyors, who have been requested to retain these until they hear that the machinery fees have been paid. I have also addressed a letter to Messrs. Petters Ld., a copy of which I enclose herewith for your information.
