Dear Sir,

S.S. "SEIZAN MARU"
Smk. Report No. 2610.

In reply to your classing letter of the 31st January 1941 regarding the recommendation in the above report, I have to say that the HP piston was found in good condition but the piston is considered better to be examined again at next annual survey, as the superintendent stated that all cylinders will be opened up again by Owners at the survey.

I am, Dear Sir,

Yours faithfully,

F. R. [Signature]
