These three barges, which are owned by the Southern Oil and Transport Corporation, were built in 1920 and are operated at Tampico.

[Handwritten scribble]

They are classed "A- Barge for being "towed. For Service on Panuco River. Carrying Petroleum in "Bulk", and became due in April, May and July, 1924, respectively, for First Special Survey No.1.

The Owners have now informed the Society's New York Office that as they carry their own insurance on these barges, they do not desire to continue them in the Society's Classification.

In the circumstances the Classing Committee, who had the cases before them on Tuesday, 9th instant, decided to give instructions for the character of each vessel to be withdrawn from the Society's Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
