Mr. James French,
Lloyd's Register of Shipping,
17 Battery Place,
New York, N.Y.

Dear Mr. French:-

Since our talk in December relative to the "Navegadora 103 and 104", we have been advised by the London office that they are going to arrange to have the vessels hauled and bottoms scraped and painted. Will you therefore kindly advise your agents in Tampico to keep in close touch with the Tampico Navigation Co., so that they may arrange to survey the above barges while same are on marine railway.

Yours very truly,

SOUTHERN OIL & TRANSPORT CORP.
