The Modified Survey of the Oil Engines

This vessel became due in December last and has been partly
red out. She has recently been sold to Japan, and the new
owners have informed the Kobe Surveyors that, as the vessel is
to be employed exclusively in coastal trading, it is not desired
to maintain her in the Society's Classification.

In the circumstances the Classing Committee,
who had the case before them on Friday, 12th instant, decided to
give instructions for the vessel's character to be withdrawn from
the Register Book and three dots (...) inserted in lieu thereof,
indicating withdrawal of class at Owners' request.
