

Barque "ALASTOR"

The 5th Special Survey No.3 became due 5.40.

The usual form of undertaking had been furnished by the Owners who now state that the vessel has been requisitioned by the Director of Sea Transport.

This case has been discussed with the Ministry who stated the vessel has been requisitioned under a T.98 Charter Party for use as an accommodation and storage hulk and that she has been removed from the River Blackwater to the River Burnham.

The Ministry do not propose to deal with Classification requirements and are content for the Committee to take what action is necessary on the merits of the case; the Owners being informed accordingly.

The case is submitted for the consideration of the Committee.
