

Barque "ALASTOR"

This case has to-day been discussed with the Ministry of War Transport who state that the vessel has been requisitioned under a T98 Charter Party for use as an Accommodation*Storage Hulk, and has been removed from the River Blackwater to the River Burnham.

In these circumstances the Ministry do not propose to deal with classification requirements and are content for the Committee to take what action is necessary on the merits of the case, it being arranged that Messrs. A.E. Martin & Co. Ltd. will be duly informed as to the result.
