

SPARE LIST

M.V. "DONIZETTI" .-

=====

One cylinder cover complete with valves, valve casings, springs and other fittings,  
 Five exhaust valves complete  
 Three starting air valves complete } For cylinder covers.  
 One safety valve complete }  
 One inlet valve complete }  
 Three fuel needle valves  
 One piston complete with all piston rings, studs, nuts, ect.  
 Two sets of piston rings.  
 One set of crosshead brasses with bolts & nuts.  
 One set of bottom and bearings with bolts & nuts.  
 1 half main bearing brasses with bolts & nuts.  
 One set of bolts & nuts for crank shaft coupling  
 One set of coupling bolts for intermediate shaft  
 One spare propeller.  
 One spare propeller shaft  
 Complete set of fuel pump working parts.  
 Additional water and oil circulating pump ready for use.

MAIN COMPRESSOR.

One set of piston rings for one piston of each size used.  
 1 half set of suction and delivery valves for each size used.  
 One half bearing for crank journal with bolts & nuts.  
 One set of bottom and brasses with bolts & nuts.

AUXILIARIES.

One complete set of valves for one cylinder with their springs and other fittings  
 fuel valves  
 One exhaust valve  
 Two fuel needle valves  
 One set of piston rings.  
 One set of bottom and brasses with bolts & nuts.  
 One set of main bearing brasses with bolts & nuts.  
 One gudgeon pin with bush  
 One set of piston rings for one piston of each size used in the air compressor.  
 One set of suction and delivery valves for each size used in the air compressor.  
 Complete set of working parts for fuel pump of one auxiliary engine.  
 One set of compressor valve springs.  
 One 2nd and one 3rd stage air cooling coil.

PUMPS.

One set of piston rings, bearing brasses and complete sets of valves for ballast pump, Bilge power pump and transfer pump. One impeller for centrifugal pump.
