Port

FALMOUTH

16th, February, 1949.

This is to Certify that

D.A. MACFARLANE

The undersigned Surveyor to this Society did at the request of

Owners' Agents attend on board the steel screw steamer 'SINAI' gross tons of PANAMA, whilst the vessel lay afloat at this port on the 1st, February, 1949, and subsequently for the purpose of examining and recommending repairs to alleged Hull and Machinery defects which are stated to have developed during the voyage from Genoa to this port.

I have transmitted to the Committee of Lloyd's Register of Shipping, London, a report, stating that all repairs recommended by me have been completed to my satisfaction and in my opinion the Hull and Machinery, as far as now seen, is in efficient condition and suitable for the voyage to Genoa as previously recommended.
