ANSD. X

reference

Dear Sir,

s.s. "SINAI".

With reference to your letter of the 22nd October last, we are forwarding herewith Report C11 and C11 (Comp.) on the above vessel with a view to the issue of a Provisional Load Line Certificate for the proposed voyage to Marseilles or Genoa for Classification, alterations and repairs.

The vessel has been examined in dry dock at this time and a general examination of the hull structure is being carried out for the issue of an Interim Certificate.

Particulars of registration are not yet available and the Owners Representative stated we would be advised as soon as they come to hand.

With regard to the sanitary discharges it is proposed to blank off with wood plugs in ships side openings all except the small number required for the runner crew and if deemed necessary the side scuttles below the second deck forward could also be permanently closed.

Yours faithfully,

The Secretary,
LONDON.
