s/s "SINAI"

Swansea letter 18.10.48

It is noted this vessel is now in dry dock, and it is submitted that, provided an external and internal examination of the hull sufficiently extensive to enable the Surveyors to satisfy themselves regarding the condition be made and the vessel be found or ^{placed in} ~~made~~ ^{condition} efficient, for the proposed voyage in ballast, a Certificate 'C' may be issued subject to the required Special Survey for Classification, including drilling of the shell plating, and all necessary repairs being carried out on arrival at the port of destination. In view of the age of this ship the Surveyors should be completely satisfied with any parts now opened out and examined and recommended as part of the Classification Survey.

J. H.

19th October, 1948.

The Surveyors should avail themselves of the opportunity afforded to prepare 1st Entry Reports on the machinery, and submit proposals for the submission of the necessary plans for consideration. *W. D.* 20/10/48
