

Lloyd's Register of Shipping,

Ocean Chambers, Lowgate,

Hull, 2nd December, 1939.

Dear Sir,

In reply to your letter of the 30th November respecting the drillings of the Steamer "MARE", our report No. 50372, we beg to acquaint you that we are satisfied as to the efficiency until the next Special Survey of the Bridge Port side plating, reported to be .33" in thickness.

The saddle back coaming has received attention at this time, please see our report No. 50390.

We are, Dear Sir,

Yours faithfully,

The Surveyors,

Dear Sir,

At this time, please see our report No. 20290.

The whole pack containing the received attention
to be 22" in diameter.

Each of the three bolts and the bolt, reported

as to the cylinder, must be next checked

ref to determine how far we are satisfied

whether 21/12" or 20/12" No. 20290.

However, reflecting the cylinder of the
