

AIR MAIL

Enclosure

12th March, 1948.

S

Dear Sir,

Reverting to your memorandum of the 25th November last regarding the steamer "AMERICAN FISHER", this vessel has apparently now been sold to the Societa di Navigazione "Ligure Toscana" who have decided to withdraw her class from the Society's Register Book and transfer it to the Registro Italiano.

You will see from the enclosed copy of letter addressed to the Owners' London Agents that the Committee have declined to agree to withdraw the vessel's class from the Register Book and insert (...) in lieu and will expunge it with a black line if she is not fully surveyed and repaired to your satisfaction before leaving port.

You should accordingly cable me immediately she leaves without doing so.

Yours faithfully,

Copy sent Gen & N.Yk
