Barcelona, 15th December 1933

"DEVA"

Dear Sir,

I beg to acknowledge the receipt of your letter of the 11th instant enclosing Bbo.Rpt.C.11 in respect of the freeboard of the above mentioned vessel and the particulars are now being confirmed.

The Special Survey on this vessel is nearing completion and will be completed towards the end of the present month. In these circumstances and in view of the coming holiday season I should be glad if the certificates could be forwarded to this Office in order that they may be handed to the Owner when the conditions of assignment have been complied with and the vessel marked.

It is assumed that the fee as indicated on the enclosed Rpt. has already been collected, but as a second survey was well advanced on the vessel it is proposed to charge an additional fee, of say £8, to the new Owner, if this meets with the approval of the Committee.

If it is necessary to measure the distance between two points, the best method is to lay out a line along the ground, and then measure the distance from each end of the line to the point. This will give the distance between the two points.

The Board of Governors of the Federal Reserve System
will be composed of seven members to be appointed by the
President of the United States.

I beg to acknowledge the receipt of your letter of May 1st 1911, and to inform you that I have no objection to your proposal.
