

COPY FOR LONDON OFFICE.

Lloyd's Register of Shipping.

PHILADELPHIA. PA.

Port

AUGUST 1st, 1921.

Handwritten: 4219
recd 21/8/21

This is to Certify that I have

Surveyed the Boiler and Machinery of the Steel Screw Steamer,
THE ARROW of New York, while under construction and installation at
works of the New York Shipbuilding Corporation, Camden, N.J.

and that I have transmitted to the Committee of Lloyd's
Register of Shipping, London, a Report stating that all
recommendations made by me in connection therewith have
been carried out to my satisfaction, and that I have

Recommended that the record of ⊗ L NC 8-21 Fitted for
fuel flash point above 150° F.

be made in the Register Book in the case of this vessel.

Handwritten signature: William Butler per Adamson

Engineer Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be
understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy
in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the
Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society.
