

S.S. "MALYGIN".

At the beginning of January the Arcos Steamship Co.Ld. stated they desired to submit this vessel to survey about June, 1926, and asked whether it would be convenient for the Society's Surveyor to go to Archangel, or whether the Society would prefer Mr. G. Novik, a Surveyor in the Russian Register, to hold the survey.

In reply the Arcos Steamship Co. Ltd., were informed that Mr. Helyer was proceeding to Leningrad and that he would be communicated with after his arrival with a view to his taking an opportunity of visiting Archangel and reporting to the Committee on the question.
