

RD REPORT on the

M.V. "Barbarigo"

It is submitted the freeboards given on the accompanying form being those required by the Tables merit approval, the same to be marked on the vessel's sides, inserted in the certificate of classification, and recorded in the Register Book.

The Surveyors should be requested to forward, for record purposes, full particulars of the hatchways, hatches, scuppers on the second deck.

When the steel watertight cover closing the tonnage opening has been replaced by efficient temporary covers, on the vessel's return from her first voyage, the surveyors should give full particulars of the scuppers from the between-deck spaces.

It is assumed that Registro Italiano freeboard certificates will be issued in this case.

The Surveyors should see that the freeboards marked on the vessel's sides are not less than those approved by the Committee. They should forward the usual verification of marking form giving the freeboards as actually marked on the vessel's sides.
