Dear Mr. Harro

In reply to your wire re particulars as to side scuttles in Ferguson Bros. T. T. "Darenth". I have now pleasure in giving you the desired details viz:-

distance of sill of lowest side scuttle
from top of wood deck at side measured in
relation to amidships } = 1'-2 1/2"

Vessel's trim by the stern = 2'-0"

Distance of centre of side scuttle
aft of amidships } = 23'-10"

With the free board given on my Report, there should be from 7 to 8 inches below lower edge of side scuttle to the L. W. L. at the trim stated above.

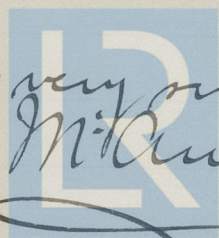

Trusting the above will enable you to assign the free board & with kind regards,

I am

Yours very sincerely

D. M. Ansell.
