Dear Sirs,

S.S. No. 371.

Referring to conversation with your Mr. Moffat regarding the bulkhead in the after tween decks of above steamer, for the purpose of our special trade, in getting long pieces of cargo stowed in the tween decks, we shall take it kind if you will arrange with Lloyd's Register to dispense entirely with the bulkhead in the tween decks above deep tank. This can be compensated for as you did in the case of the other steamers, Nos. 339, 340 and 342.

Your kind attention to this will oblige.

Yours truly,

JAMES GARDINER & CO.
