sn(s)

Dear Sir,

Motorship "VAIE"

I have to acknowledge the receipt of your letter of the 17th instant with enclosed copies of amended Interim Certificates issued by you at the request of the Owners.

I regret to inform you however that when your report No.2090, to which these Interim Certificates refer, received the consideration of the Committee, it was decided to withhold the record of screwshaft renewal 12,50 recommended by you in view of the limit requiring the propeller shaft coupling to be replaced by a coupling of approved material before the end of June 1951.

This decision will not affect the text of the amended Interim Certificate which of course refers only to the actual recommendations made by you, but it is thought well to place you in possession of the facts which were inadvertently omitted from my Classing Letter of the 6th February last.

Yours faithfully,

Clerk to the
Classification Committee.

T. Osterberg, Esq.,
HELSINGBORG.
